

August 29, 2022

Cooper Creek Cedar Ltd (CCC) is referring the Company's 2023-2028 Forest Stewardship Plan (FSP) for Public review. The FSP is a landscape level plan that specifies Results and Strategies that must be implemented to meet the objectives set by Government for Soils, Water, Wildlife, Visual Quality Objectives, Timber, Fish, Biodiversity and Cultural Heritage Resources. The Results and Strategies state forest management practices that will conserve and protect forest resources within the company's planned areas of interest in which harvesting and road construction activities will occur. The Results and Strategies must be measurable or verifiable so they can be evaluated as to whether the specific objectives are being met.

CCC's FSP includes forest tenure from Laird Creek/Balfour Face to Fletcher Creek, Johnsons Landing to Argenta to North Duncan Lake and Howser Creek, including the side drainages in Howser Creek.

The FSP is publicly available for review and comment for a period of 60-days. The FSP, Forest Development Units and Appendices can be viewed at: <https://coopercreekcedar.com/> Comments must be received by November 1, 2022 to be considered.

Comments should be sent to: [bkestell@shaw.ca](mailto:bkestell@shaw.ca),

Or mailed to: Cooper Creek Cedar Ltd, Box 850, Salmo, BC, VOG 1Z0, Attention: FSP
